Subject: RE: Oxycodone Lab Packet# [REDACTED]

Hi Marianne-

I looked over my notes for the case and my records show that I mailed the discovery packets to ADA Laura Martin on December 13, 2010. She said that the packet for [REDACTED] was for lab #'s [REDACTED], and that the packet for [REDACTED] was for lab #'s [REDACTED] (though I also see his name as a co-defendant on [REDACTED]). Do you have any of the discovery paperwork, or are you just missing the information for [REDACTED]? If you were looking for the oxycodone paperwork in the Mazenkas packet, you wouldn't find it there, though it is in the Manning packet. Please let me know if it is just the stuff for [REDACTED] that you don't have, or if you have none of the paperwork so I will know what to prepare for you. Depending on what is missing, I could fax you the [REDACTED] information, but probably not the entire packets as our fax machine can be a bit temperamental. Emailing them is not an option as our lab does not have a scanner that works. If it is just the oxycodone part, what is your fax number so I can get it to you?

Also, I was unaware that this case was scheduled for next week. What day is it scheduled for? I only have one other case scheduled for next week (on the 7th), but I could try to contact the ADA involved and see what the status of that case is (we rarely have to actually testify in Northampton). Thanks.

-Sonja

Subject: Oxycodone Lab Packet# [REDACTED]

Dear Ms. Farak,

I am one of the ADAs over in Quincy District Court. I have [REDACTED] case on for next week. In reviewing the file, I noticed we are missing the Chemist notes for the above packet. Could you please send them along to me in an e-mail or by US mail asap. Thanks in advance! Marianne
